

## How to Determine Your Ring Size

### Method Using a Ring You Already Have and Our Printable Guide

1. Print this guide with the page scale set to 100%.
2. Place a ring you already have (or have borrowed, if it's for a surprise proposal or gift) on the circles to the right.
3. Match the inside of the ring with the circle that is closest in size. The measurements shown refer to the diameter of the inside of the ring.
4. If the ring falls between two sizes, order the larger size.

#### Notes:

- Consider the width. The wider the band, the tighter it might feel. You may need to increase the size by half a size.

If the height of a credit card (54mm) fits within this outline, then your print scale is correct.
